

Regents Review Resources

The Khan Academy App on your chromebook

Or go to: www.khanacademy.org

It can be used to search any topic you need to look up. There are excellent videos and practice problems. You sign in with your gmail address and the same password you would use for your email.

www.Emathinstruction.com

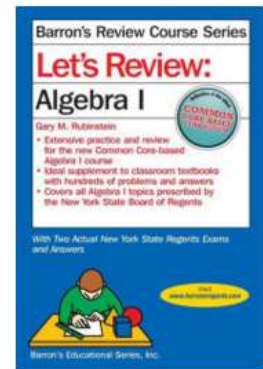

Then click on “Common Core Algebra 1” under “Free eTextbooks”

This is an excellent resource with practice worksheets and videos that correspond to each lesson!

The **blue** Barron's review book for Algebra I can be purchased online or at most book stores. It is aligned with the new common core algebra. It provides step-by-step demonstration examples and diagrams. This book presents a clearly organized chapter-by-chapter review of all New York State Regents Algebra I topics.

www.mathtv.com You can find videos about many different topics on this website!

www.IXL.com Then click on “Ninth Grade Algebra 1” This is a good resource, however you are only allowed to complete 10 practice problems in a 24 hour period for free without a subscription.

www.regentsprep.org Then click on *Algebra*. Unfortunately this site is aligned with the OLD integrated algebra curriculum, however it can offer you some help on certain topics that overlap.
